Step 2:

Fold the top corner down
to the bottom corner to
make a triangle.

Step 3:

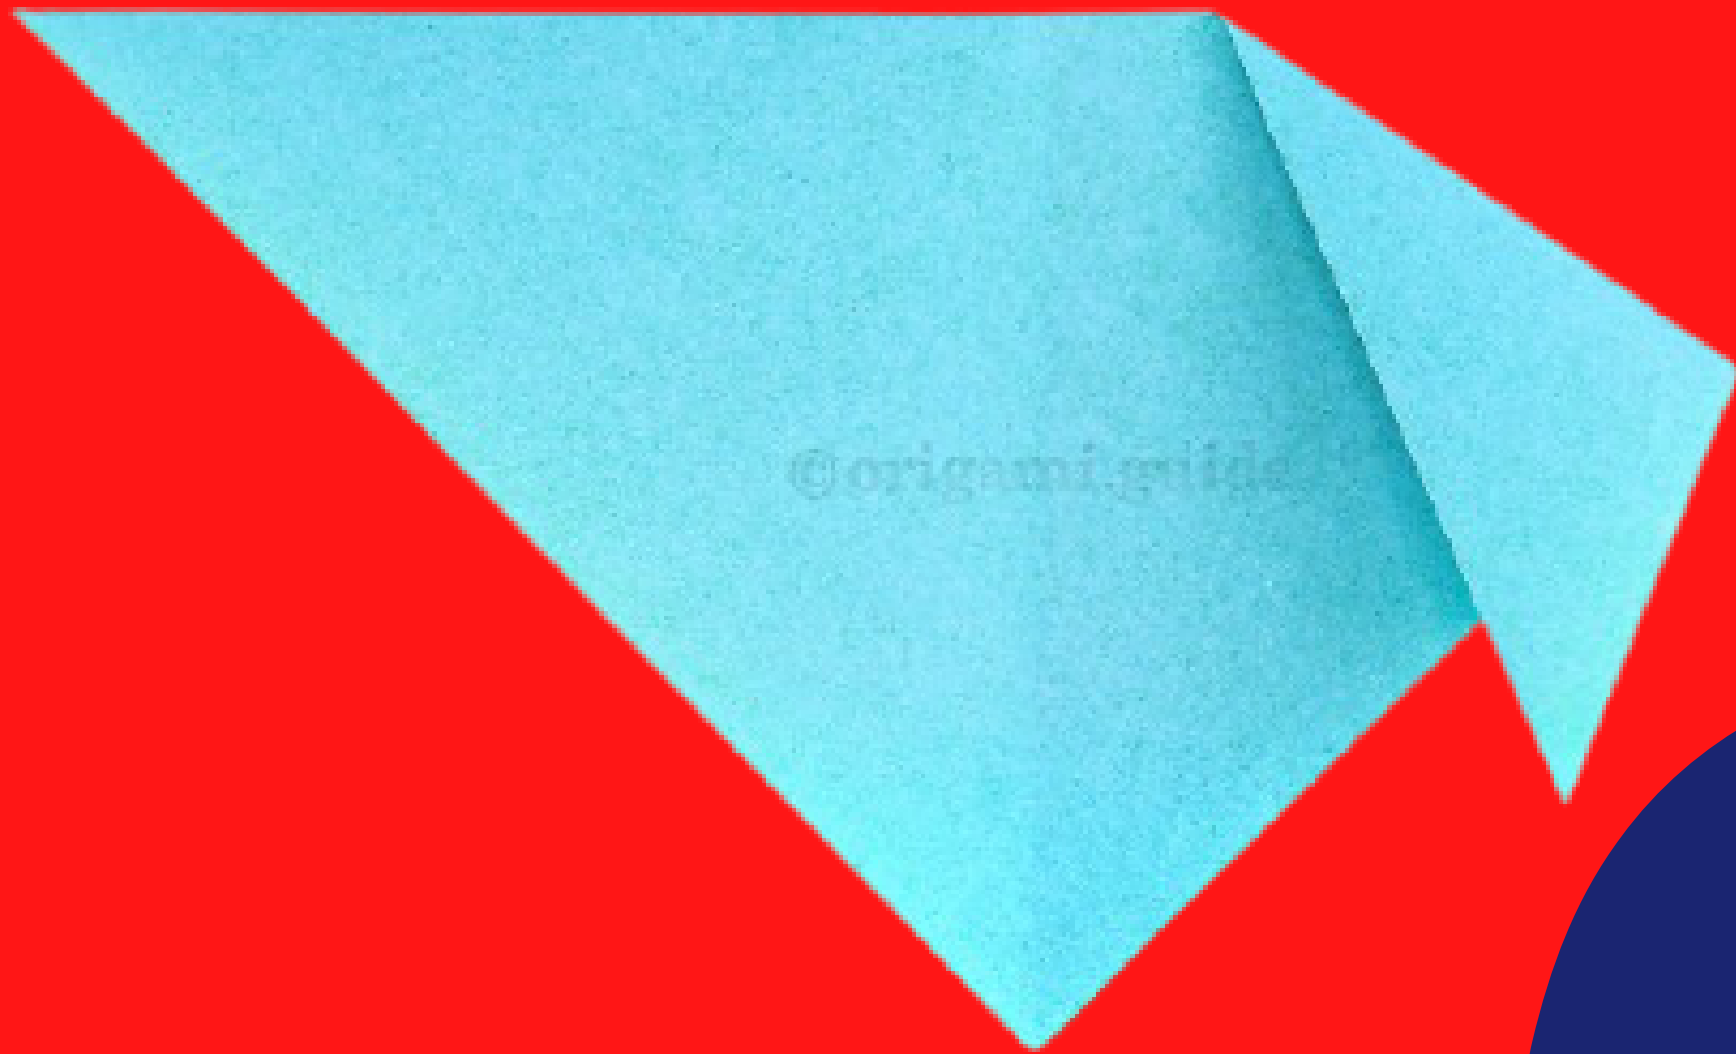

Bring the right point over
to the left point and lightly
crease.

Step 4:

Unfold the previous step.

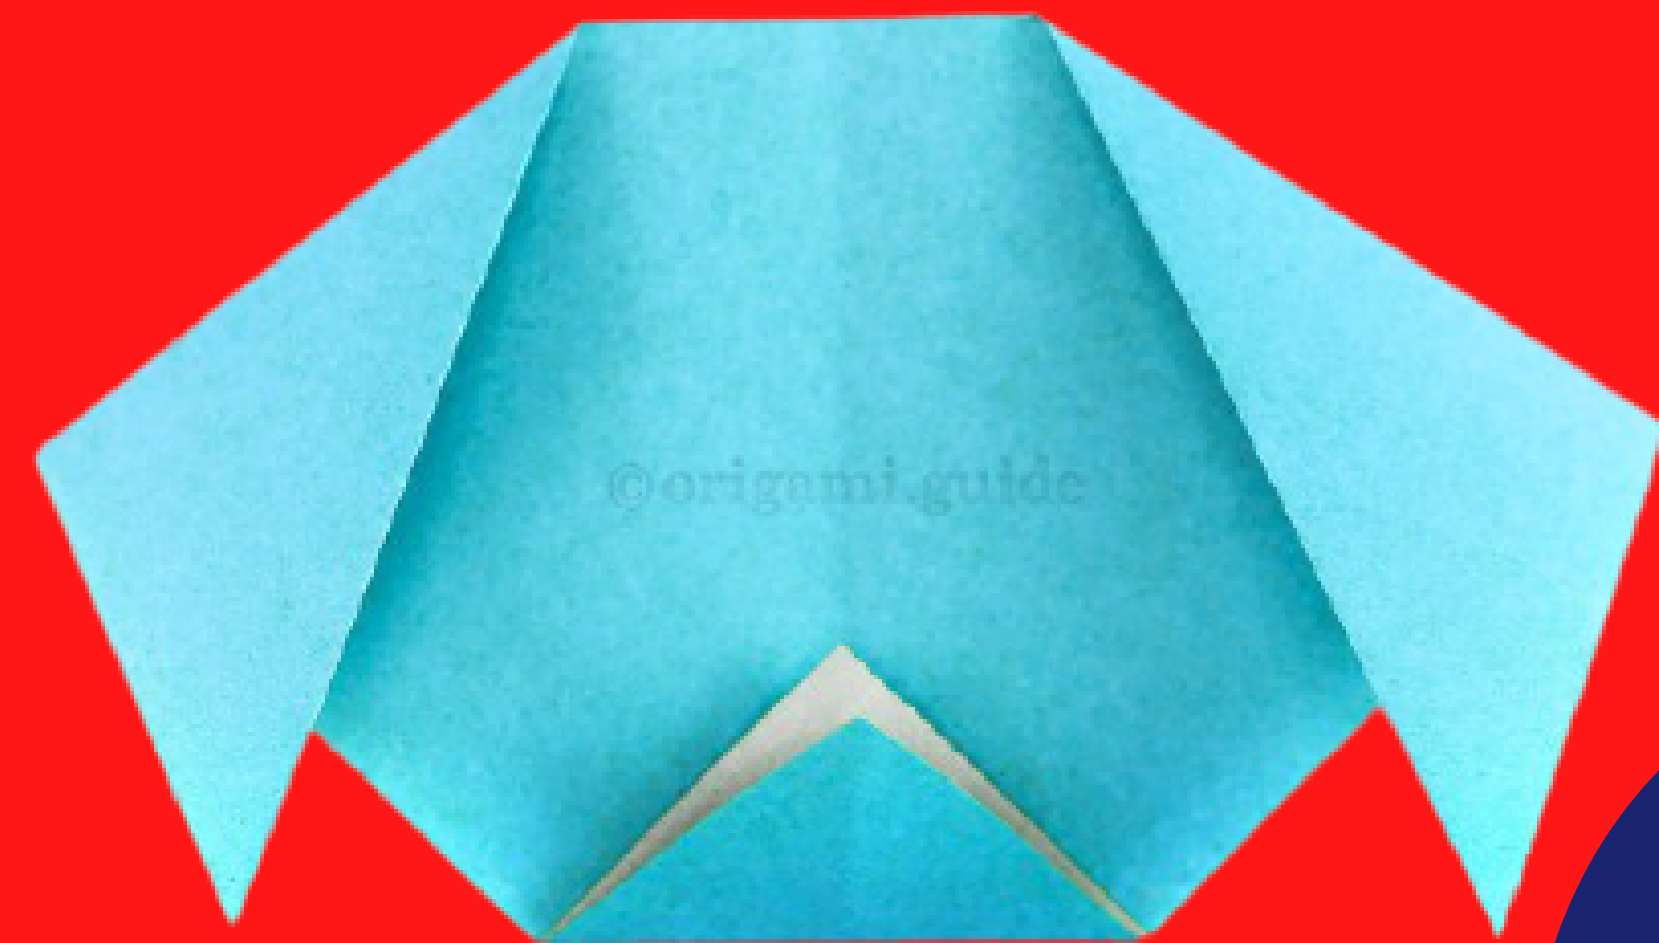

Step 5:

Fold the top right point
down into a position similar
to this.

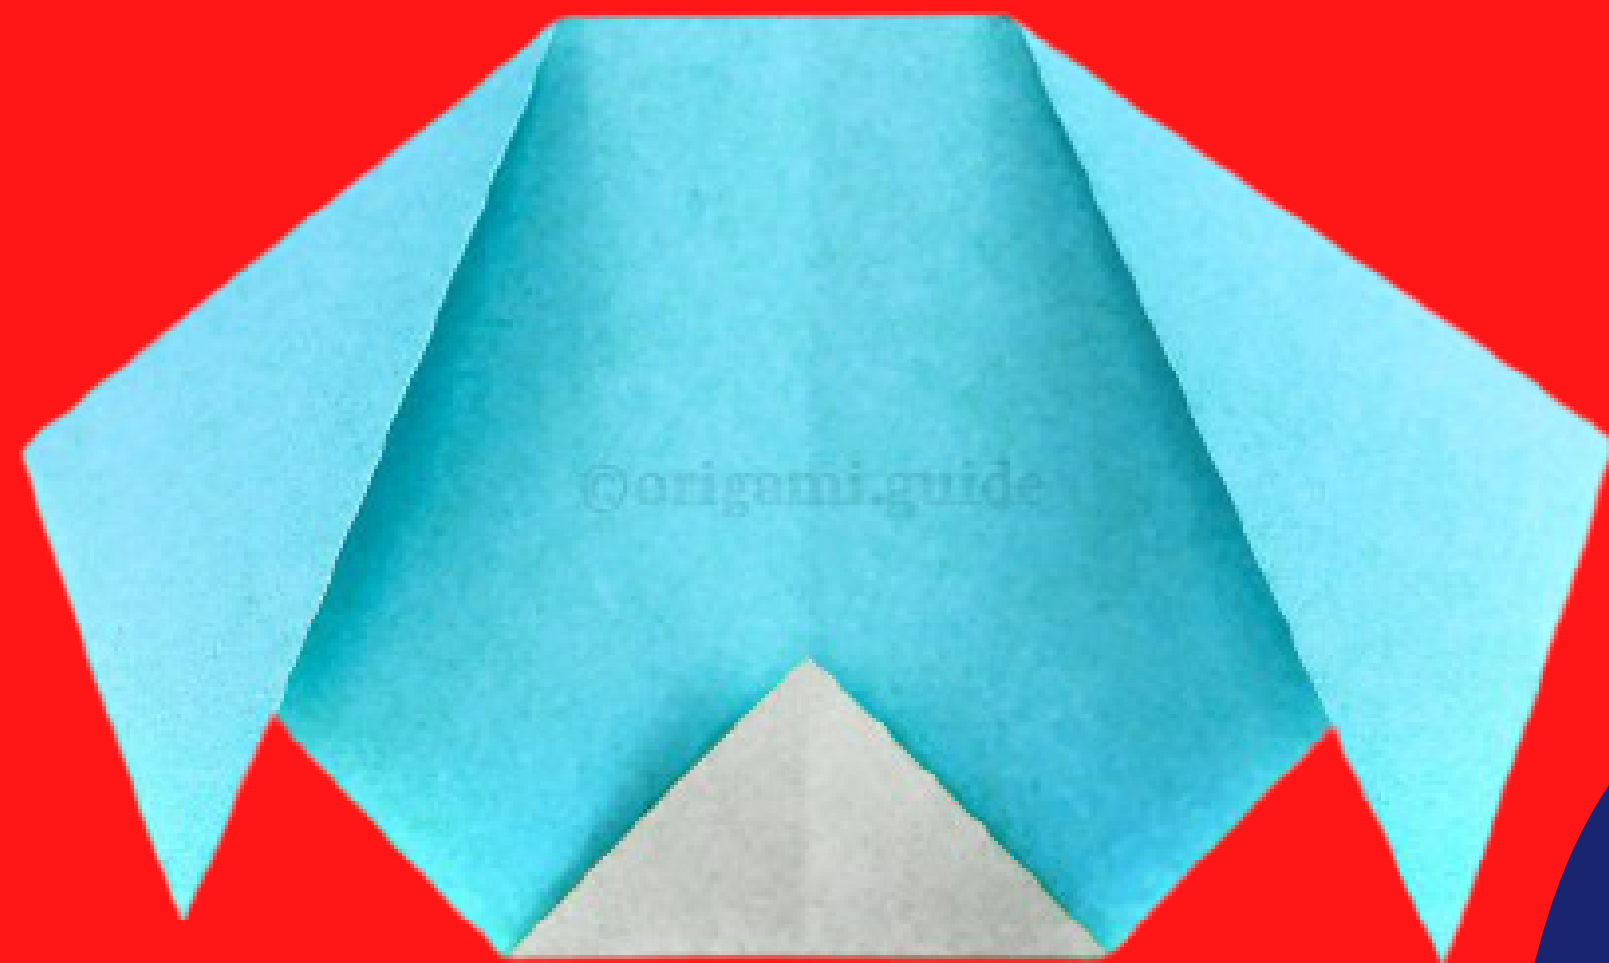

Step 6:

Repeat on the left. Folding the ears at different angles will change the look of your dog's head and ears.

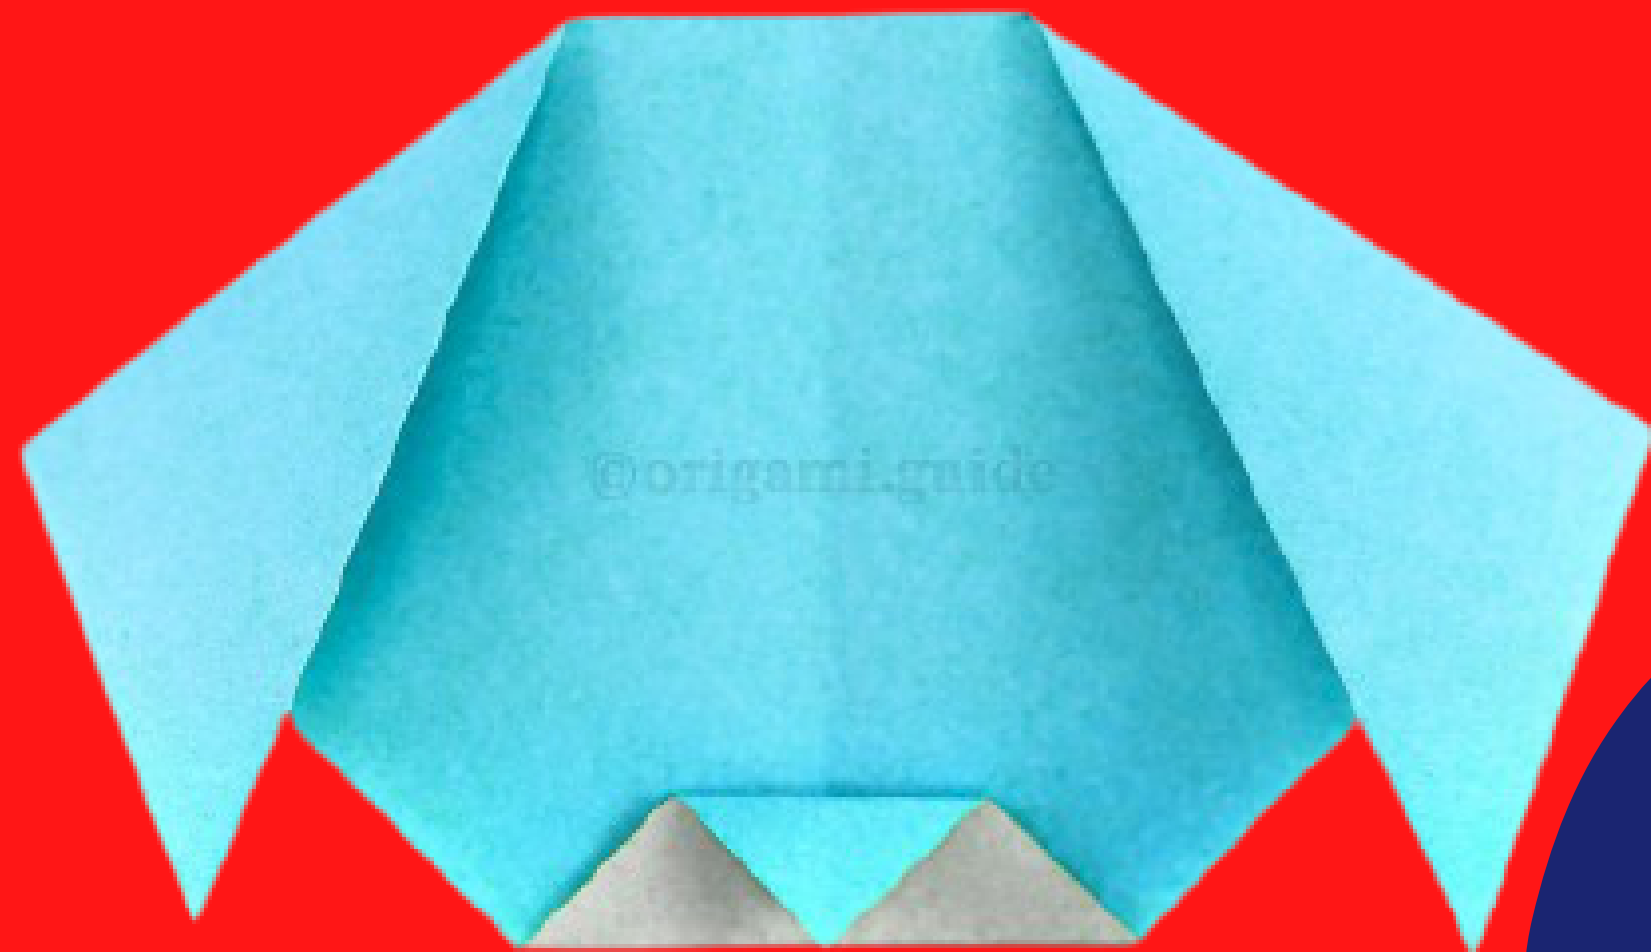

Step 7:

Fold both layers of the
bottom point up a little.

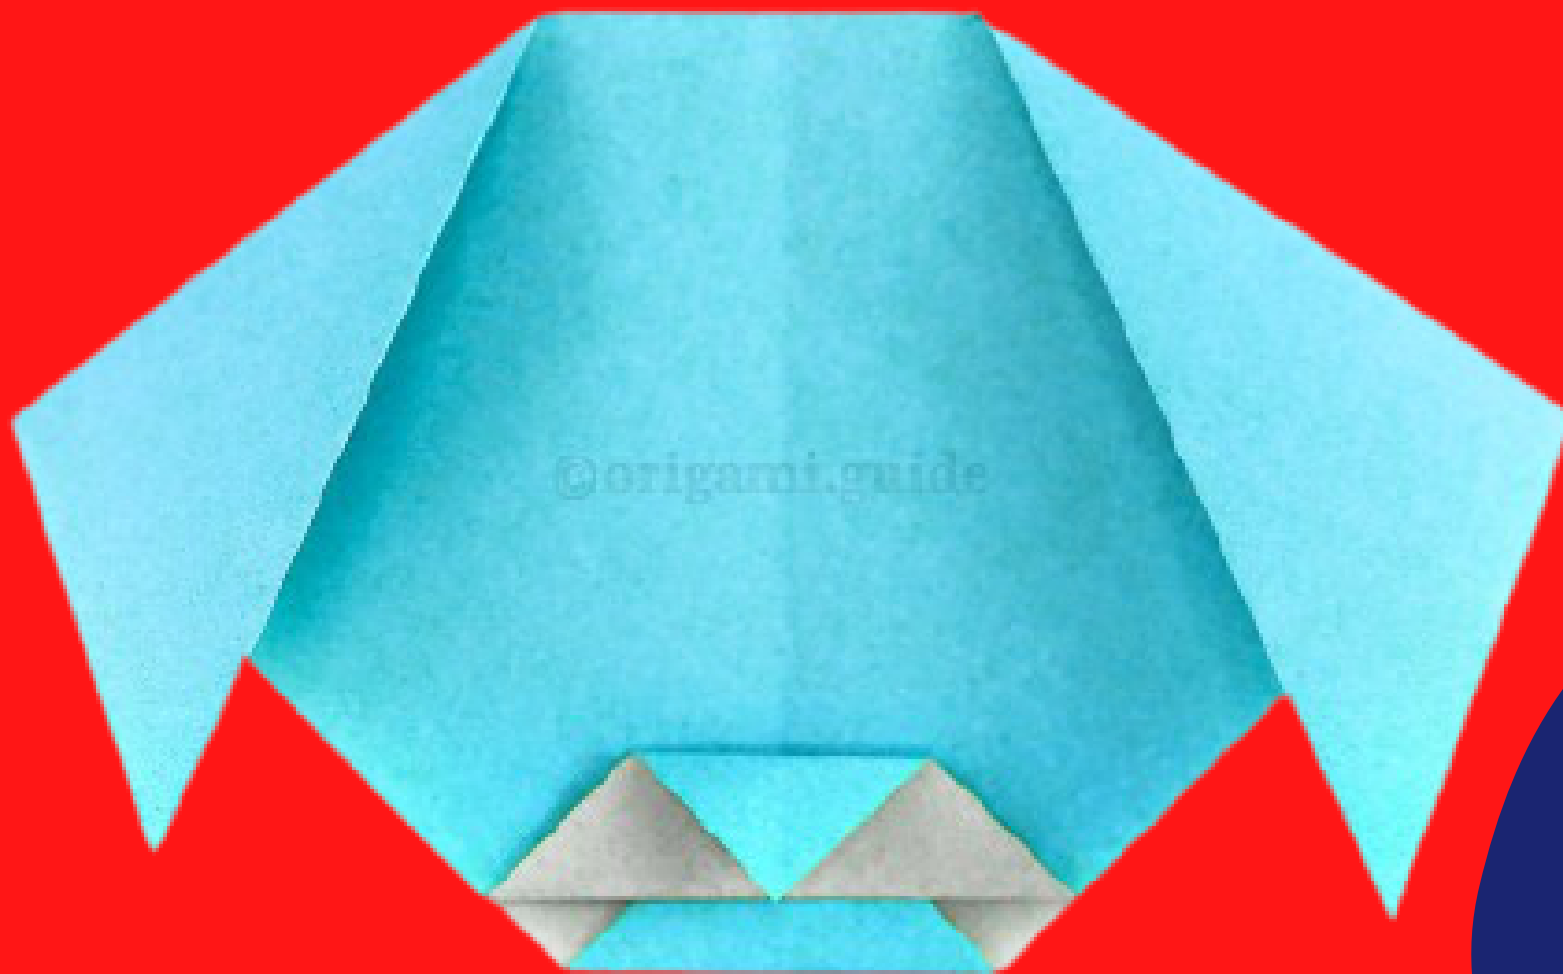

Step 8:

Tuck the front flap
underneath, in-between the
two layers.

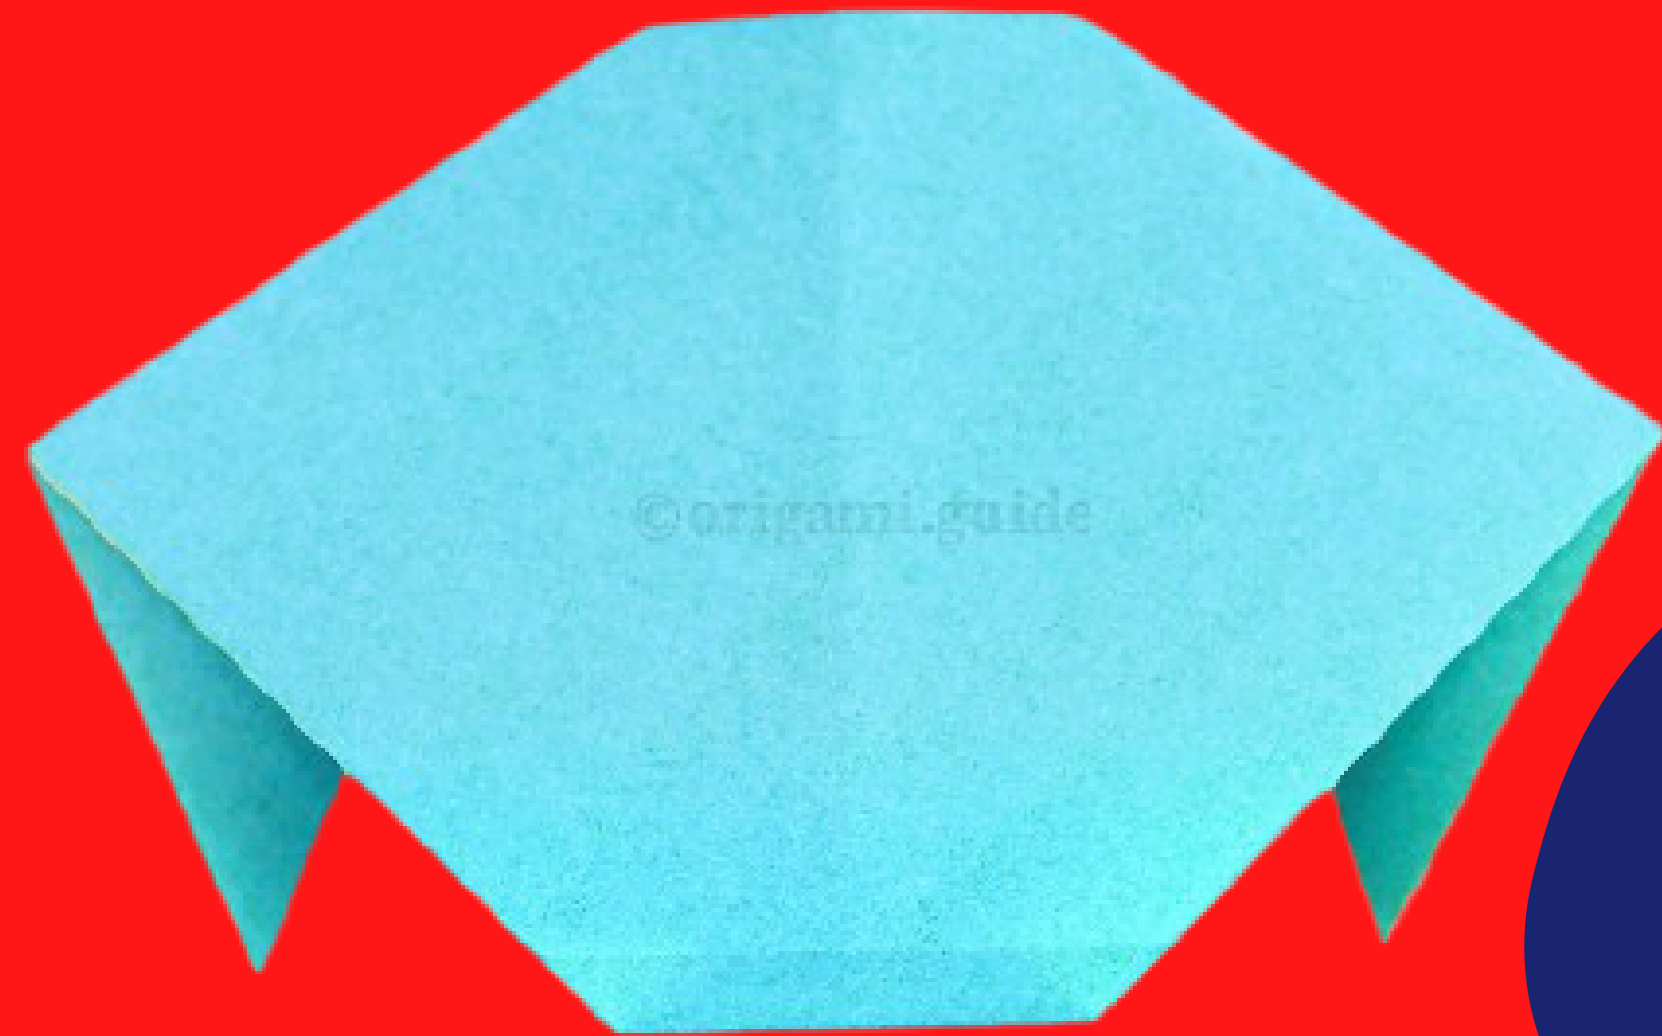

Step 9:

Fold the top point of the flap down to the bottom to finish the nose.

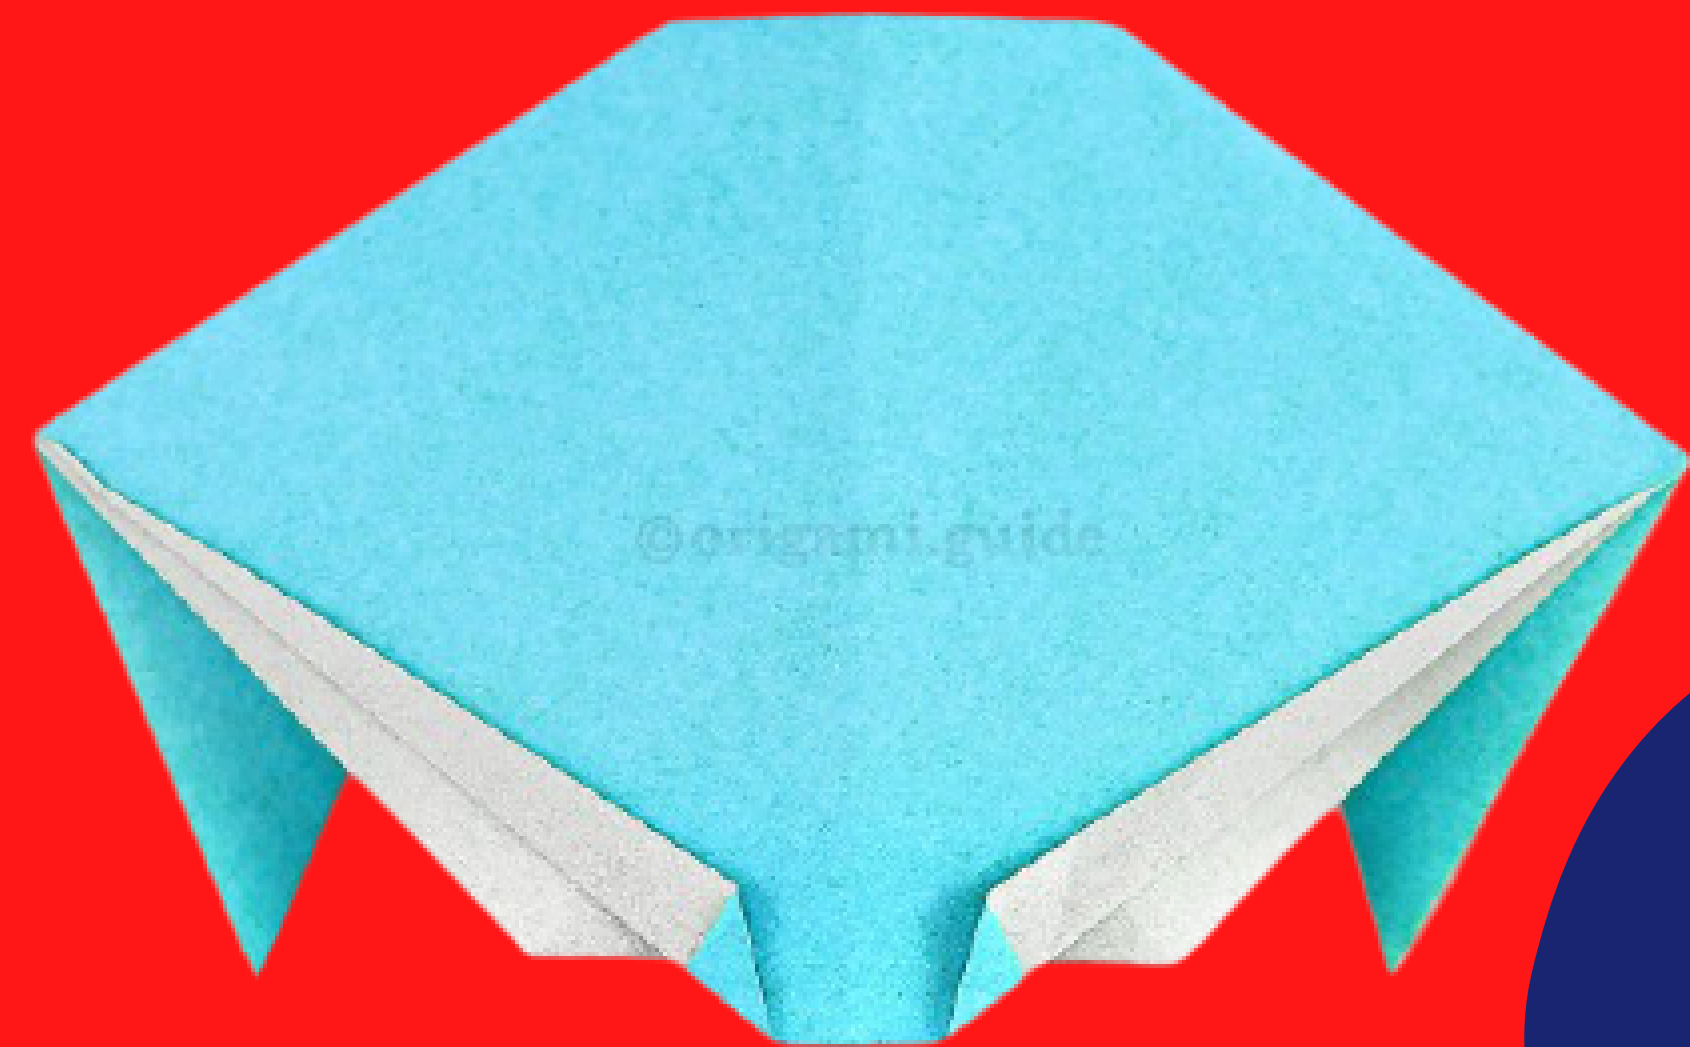

Step 10:

To create a chin, unfold the flap that you tucked inside and re-fold it a little lower.

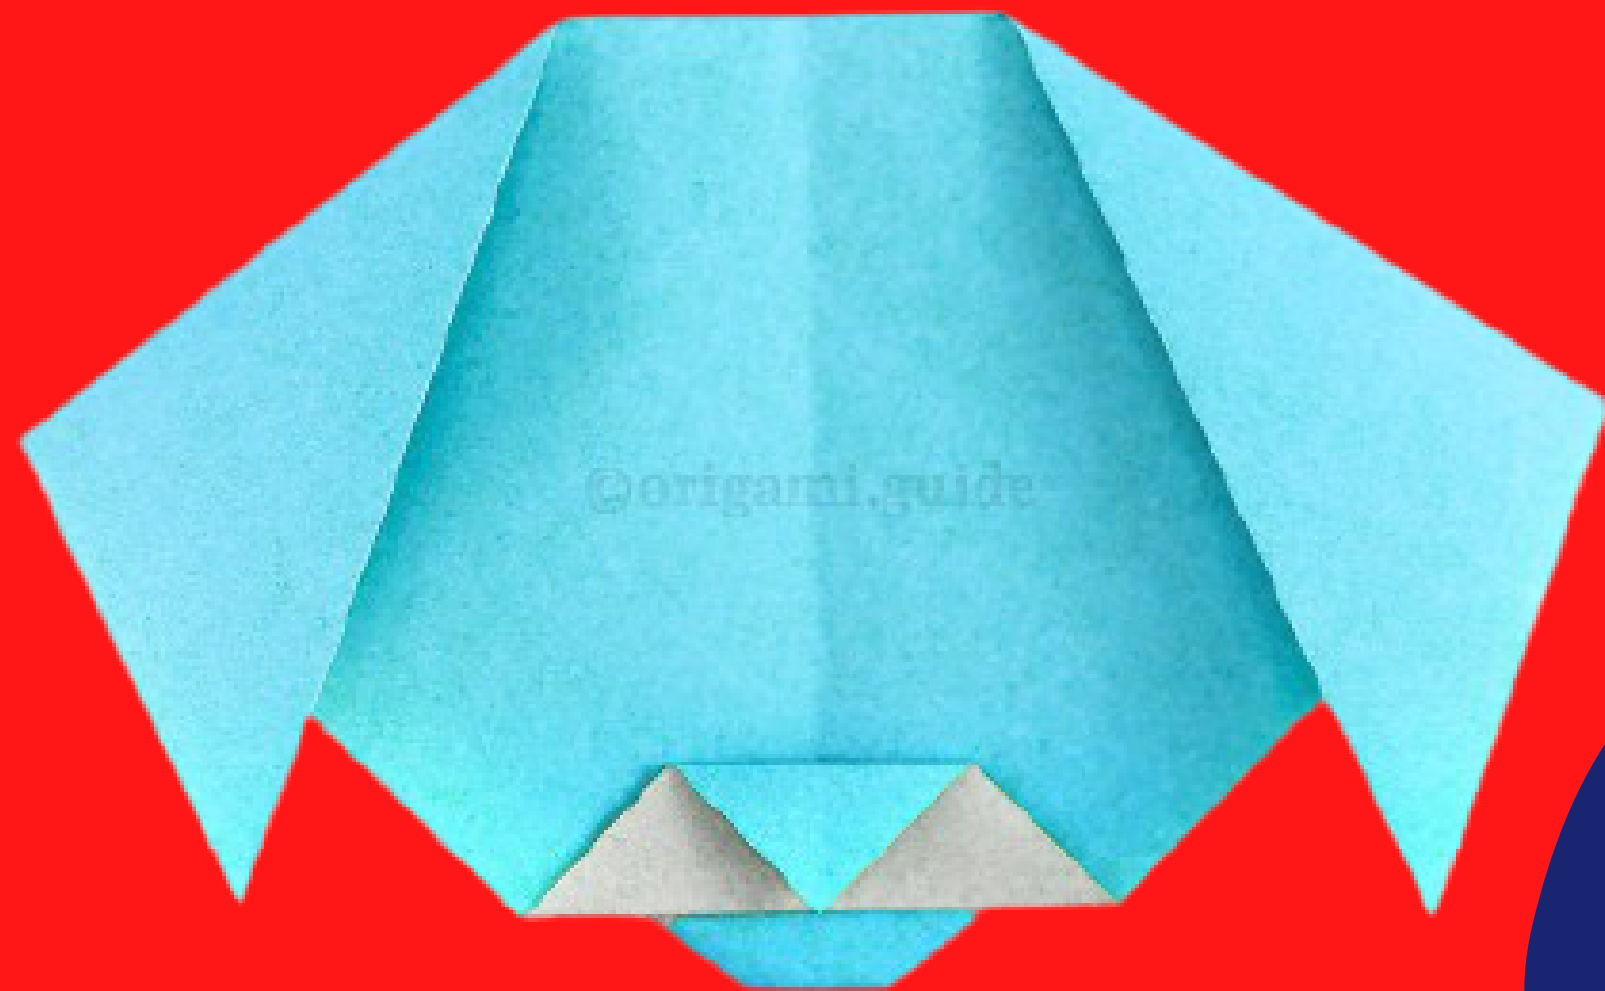

Step II:

Flip the model over to the other side..

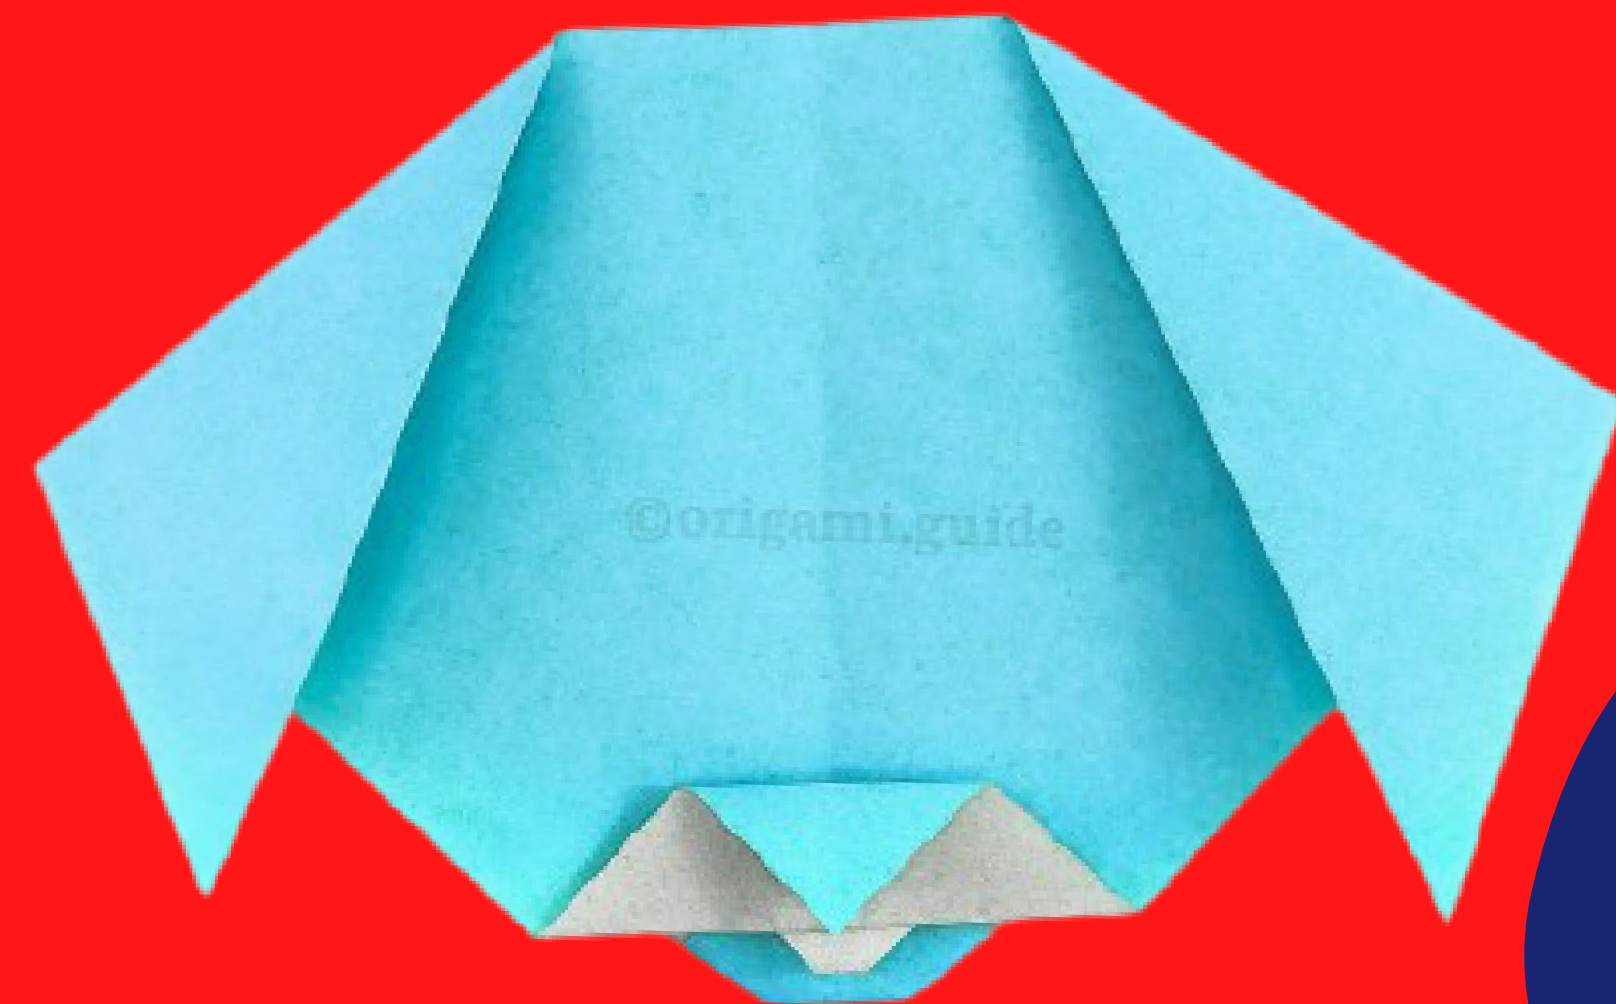

Step 12:

Make these two folds on
the lower left and right
diagonal edges.

Step 13:

Flip the model back over to
the front.

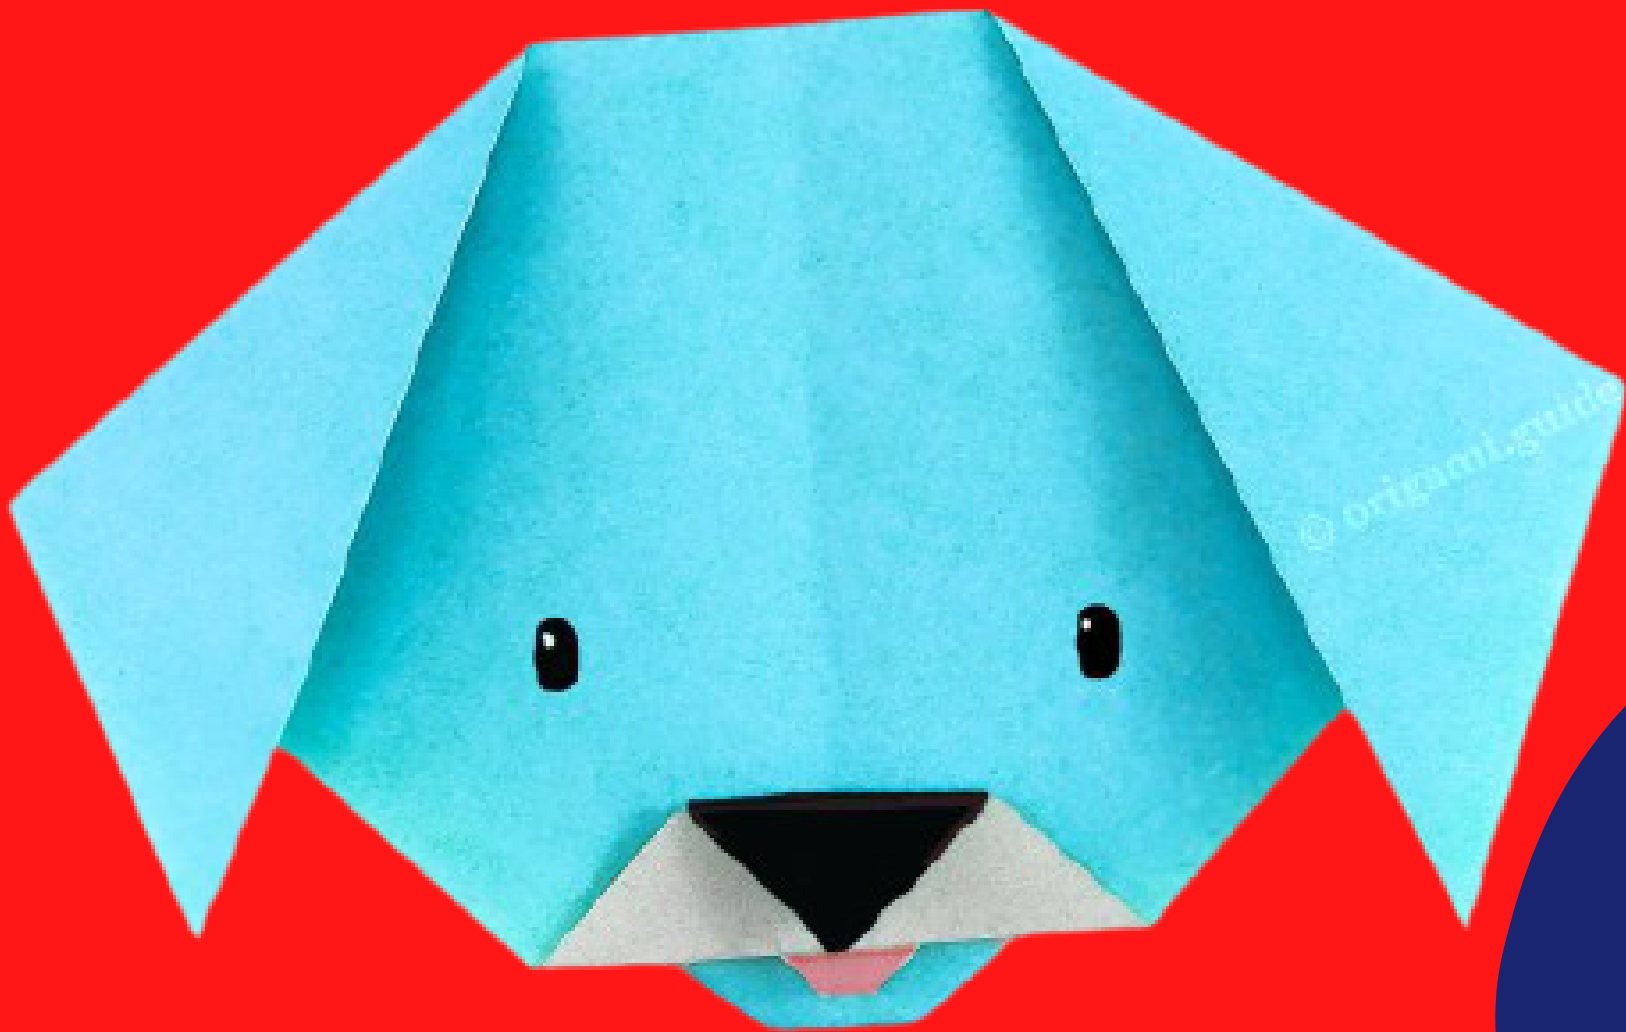

Step 14:

You can make a little tongue by folding the top point of the chin down a little and then folding the point under to round it.

Step 15:

Finally, you can draw a face on your origami dog, even use some pens to colour the nose and tongue.
